Accessories

Sacci Slipbelt

The Sacci Slipbelt system is developed and designed to be adapted to the needs of our customers and users. We have a wide range of accessories and holsters to suit different wishes and areas of use.

On the Slipbelt rail, attach the holster you want as an accessory to e.g. Carry your PDA or anything else you need to take with you to work. The holster can easily be pushed to the side of the belt when you are not using your accessory so that you can move more smoothly.

The holsters are available in several different variants and models. All holsters are attached to the rail with a click system to easily take on and off. In addition to holsters, we offer a solution based on RAM's ball system for attaching PDAs and other devices to the belt.

If you do not find a holster or bracket that suits you and your area of use, we also make customer-specific solutions.

HOW TO ORDER

Sen email to: sacci@sacci.se,
or call: +46 (0)243-93250

PRODUCT OF SWEDEN

From Torsång to the world. With our roots in between the forests and the winding river in Torsång, the family company has delivered backpacks and carrying equipment for extreme conditions for over a hundred years. Now as then, it's the craftsmanship, innovative thinking and quality of our products that make us renowned.
