

HANDSFREE

Sacci Harness Basic

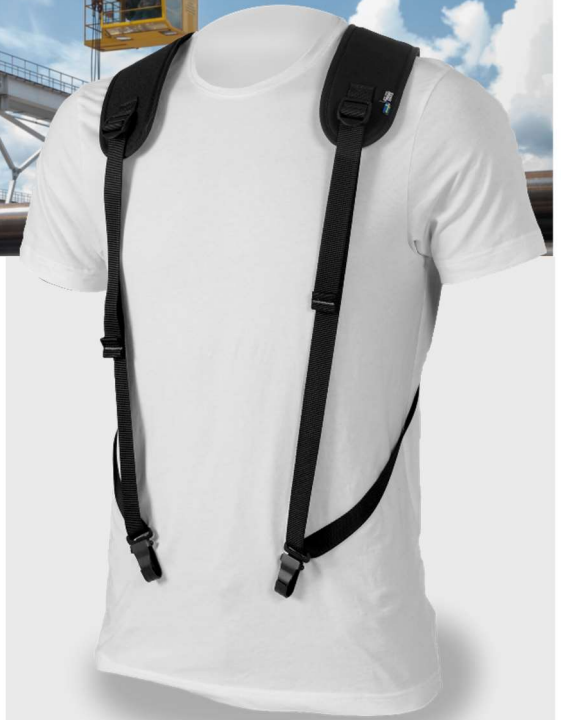

Art nr: 266038

Despite its name, the Sacci Harness Basic is one of our most ergonomic alternatives. The harness attaches to the equipment with two metal carabiners. It is well suited for longer work shifts and heavier units

With Harness Basic, we want to facilitate and streamline people's work and offer the opportunity to prevent unfavorable loads and work injuries. As the weight is distributed over both shoulders and on the back, you can reduce the harmful load on other parts of the body.

You can easily adjust the length of the harness with the straps to suit different users or preferences.

Harness Basic works for radio control units or similar. The carabiners fit attachment points up to 7,5 mm in diameter and have a width of 12 mm.

HOW TO ORDER

Sen email to: sacci@sacci.se,

or call: +46 (0)243-93250

 PRODUCT OF SWEDEN

Weight: 200 g

Measurements: 420 x 300 mm
