# GPS Backpack

Art no 222122

The GPS Backpack is an agile and rugged backpack on which you mount your GPS on a bar at the centre back so it's over your head for optimum measurement.

The backpack has room for everything you need to carry with you, such as extra battery and accessories. On the front straps, you can mount your handheld computer and on the belt around the waist you can attach pockets or brackets to carry items such as spray cans.

The bag is made in the material CORDURA®, which consists of high-strength and textured polyamide 6.6 filaments, designed to withstand the harshest environments and built to last with its superior wear-resistant performance.

## HOW TO ORDER

Email [sacci@sacci.se](mailto:sacci@sacci.se),  
or call us at +46 (0)243-93250

PRODUCT OF SWEDEN
